Tactical Support

Lighting

PRODUCT SUMMARY

The **Zenith** is a rugged, all weather military grade tower. It is stowed at a height of 48 inches (1.2 m) and rises to a height of 33 feet in approximately two minutes. With the push of a button, the **Zenith** self-assembles, creating a three-sided, stable, and strong structure. The tower must be secured to an appropriately designed mounting pad or vehicle to ensure both safety and stability when raised.

Zenith Specifications

Fully Deployed Height ¹	20' (6.1 m)	33' (10 m)
Time to Max Deployed Height	90 Seconds	2 Minutes
Set Up Time	Less than 2 Minutes ¹	
Ability to Stop at Any Height	Yes	
Top Payload Capacity	500 lbs (226.8 kg)	
Approximate Tower Weight	450 lbs (204.12 kg)	600 lbs (272.16 m)
Overall Dimensions (Stowed)	48" W x 46" L x 44" H (1.2m x 1.17m x 1.12m)
